Hi Everyone,

Just a note to let you know how Nana is doing. In one word - GREAT!

We set up a large crate with comfy bed the first night so she would have a safe place and we could monitor her activity in our bedroom. That was the first and last time we used it. It's still there in case she needs "security".

She has not had a single accident. We let her out on a regular basis and when she tells us she needs to go potty. We will work with her on the doggie door when the weather isn't so yuck.

Her favorite spot is her fur throw in front of our fireplace in the great room. If it gets too warm, she moves to another part of the room and we turn it off. She has started sleeping there at night also.

She has visited our vet and I've started bathing (daily) her hairless spots and tummy with a shampoo to eliminate the irritation. It's helping quite a bit.

She has decided that Mike is her person and cries when

he is outside without her. Hobo doesn't understand what's going on with that so we give him extra attention. Farley doesn't care.

We are so very pleased with everything about Nana. She is loving, sweet, well behaved, good eater, etc. She is a wonderful addition to our family. She keeps us laughing with her "talk" when we rub her tummy!

How could anyone mistreat such a gentle soul? Please be assured that will never happen again.

We love her dearly already and will do our very best to see that she has nothing but happiness and good "cookies" for the rest of her life!

*Shila & MIKE*
